

## Archuleta - Summary Report

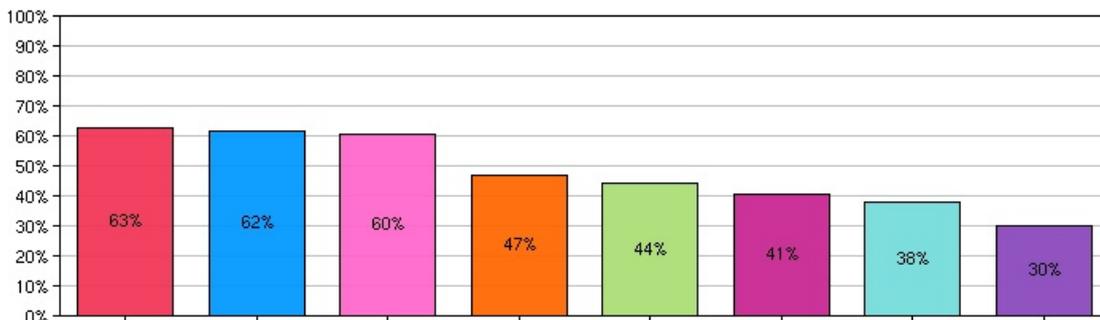

Survey: County and Tribal Nation Economic Development Self-Assessment Survey

**Your County's or Tribal Nation's Economic Strengths: Please select up to five (5) from the following that you think best characterize the greatest economic development strengths of your home county or tribal nation:**

Value	Count	Percent %
A well-trained workforce	18	5.8%
Access/proximity to markets	6	1.9%
Transportation network	6	1.9%
Raw materials/natural resources	64	20.5%
Renewable energy potential (wind, solar, geothermal, hydro, biomass)	208	66.7%
Tourism assets	294	94.2%
Strong existing businesses	23	7.4%
Strong community leadership	34	10.9%
Effective economic development organization	12	3.8%
Designated Enterprise Zones	32	10.3%
Local resources for capital – business loan funds, etc.	5	1.6%
Local health care facilities	143	45.8%
Technology/communications	24	7.7%
Quality local/regional school system	73	23.4%
Housing options	74	23.7%
Attractive, livable communities	182	58.3%
Other (please specify)	27	8.7%

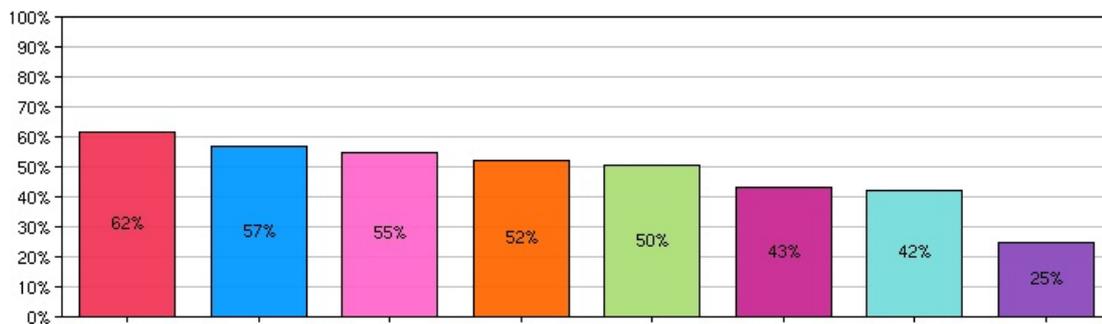

Statistics	
Total Responses	312

**Your County's or Tribal Nation's Economic Weaknesses: Please select up to five (5) from the following that you think are the most significant economic development weaknesses or deficiencies in your home county or tribal nation:**

Value	Count	Percent %
A well trained workforce	147	47.1%
Access/proximity to markets	192	61.5%
Transportation network	138	44.2%
Raw materials/natural resources	20	6.4%
Renewable energy potential (wind, solar, geothermal)	16	5.1%
Tourism assets	8	2.6%
Strong existing businesses	127	40.7%
Strong community leadership	196	62.8%
Effective economic development organization	188	60.3%
Designated Enterprise Zones	27	8.7%
Local resources for capital – business loan funds, etc.	118	37.8%
Local health care facilities	17	5.4%
Technology/communications	93	29.8%
Quality local/regional school system	58	18.6%
Housing options	42	13.5%
Attractive, livable communities	12	3.8%
Other (please specify)	17	5.4%

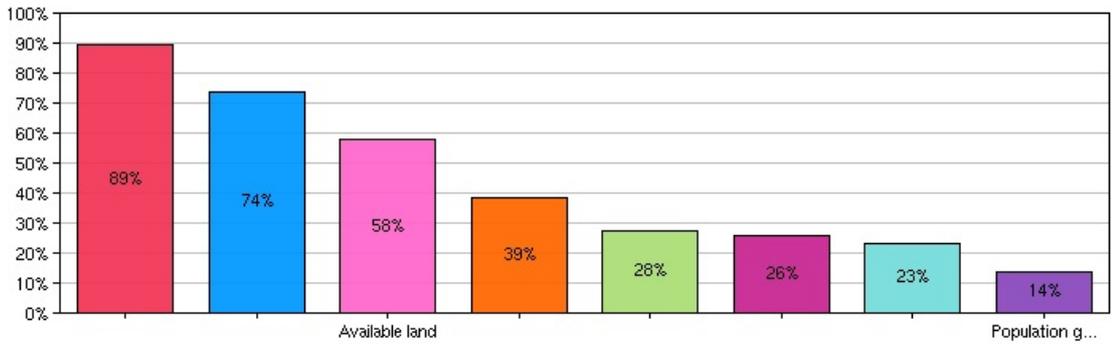

Statistics	
Total Responses	312

**Economic Threats or Limitations: Please select up to five (5) from the following that you think most threaten or limit the economic development potential of your home county or tribal nation**

Value	Count	Percent %
Lack of affordable housing	67	21.5%
Infrastructure deficiencies (i.e., roads, water/sewer, transmission lines, etc.)	177	56.7%
Lack of labor force training opportunities	132	42.3%
Lack of developable land and/or suitable buildings	6	1.9%
Lack of community amenities (i.e. parks, community center, etc.)	38	12.2%
Vacant Main Streets, town centers and/or shopping areas	162	51.9%
Volatility of business cycle (boom/bust)	192	61.5%
Declining industries	55	17.6%
Lack of access to capital	77	24.7%
Flight of younger generation from our community	134	42.9%
Excessive permitting fees & hostile regulatory environment	157	50.3%
Ineffective existing government (local, state, federal)	171	54.8%
Limited water resources and impacts on local industries and/or agriculture	18	5.8%
Other (please specify)	31	9.9%

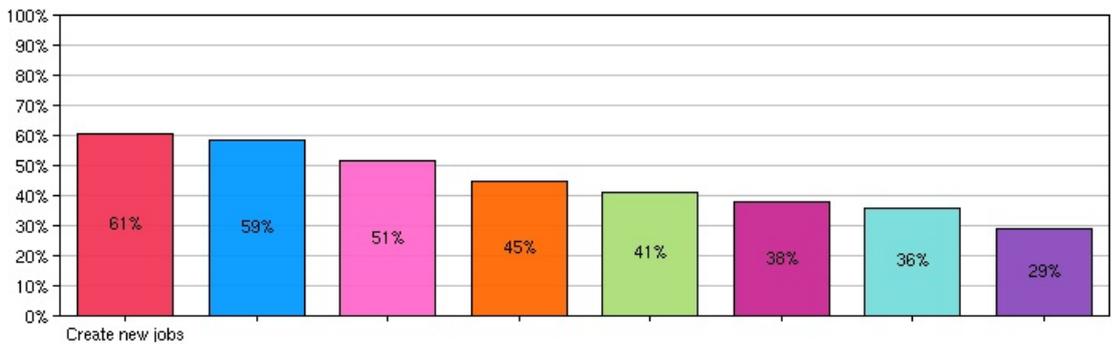

Statistics	
Total Responses	312

**Economic Opportunities: Please identify the economic opportunities that provide the most potential for your county or tribal nation. Please select the top five (5) opportunities.**

Value	Count	Percent %
Population growth	43	13.8%
Skilled labor force	29	9.3%
Available land	180	57.7%
Access to transportation, air, highway, rail	28	9%
Anchor industries or clusters	26	8.3%
Proximity to research university	7	2.2%
Specific demographic group – students, retirees, etc.	86	27.6%
Tourism attractions	279	89.4%
Vital Main Street or downtown	73	23.4%
Natural resource base	120	38.5%
Attractive communities/quality of life	230	73.7%
Availability of water resources	81	26%
Other (please specify)	23	7.4%

**One Action That the State Could Undertake: If there was ONE action that the State of Colorado could undertake to help advance economic development in your home county or tribal nation, what would it be?**

Count	Response
1	Fewer laws resulting in increase in local control. Fewer taxes & fees.
1	A quality communications system.
1	ACCESS TO CAPITAL
1	Affordable financing/loans for business, gov't and infrastructure projects
1	Apply dollars at the local level, especially in rural areas
1	Assess the credibility and integrity of our local government!
1	Assist in development of renewable energy assets.
1	Assist in obtaining funding for the geothermal greenhouse project.
1	Assist relocation/location of anchor industry in our County for employment opportunities.
1	Assist with infrastructure. Roads such as Piedra Road. Airport.
1	Assistance in developing geothermal, sustainable resources.
1	Available funding programs, grants, micro-loans through banks, Economic Regions, banks.
1	BRING PROPERTY TAXES BACK DOWN TO REALITY!!!!
1	Balance your budget and lessen government control.
1	Bring in Big Box Stores
1	Building dept. less restrictive with fees and more timely in permits.

1	Business loan funds/micro loans/access to capital
1	Change county classification for school funds. We are not rural.
1	Childcare
1	Complete internet connection with high speed access
1	Continue to support and to improve public education.
1	Convert Steven's Field to a commercial airport from a private airport
1	Create Jobs/Improve Economy
1	Create regional marketing districts with plans supported and exported by the state.
1	Cut regulatory impediments
1	Decrease complicated regulations and provide funding assistance.
1	Decrease red tape to get things done.
1	Develop ways - jobs, revenue etc - to keep people here and wanting to move here.
1	Don't cut funding for jobs/education at any level of government.
1	Downtown revitalization grants
1	Encourage development of natural gas resources.
1	Energy Development-oil, gas, etc.
1	Financial Help
1	Financial and technical assistance with geothermal development
1	Fix our roads!
1	Fund tourism
1	Funding
1	Funding for green business development.
1	Funding/other resources for expanded geothermal heating and light industry (permaculture) use
1	Funds and grants to build a family resource center that would provide jobs to youth and parents.
1	Funds to improve infrastructure and technology
1	Get CDOT to reduce traffic speed on Hwy 160 through Pagosa Springs.
1	Get out of businesses way when it comes to overregulating & permitting & taxing.
1	Grant assistance for renewable resource development.
1	Grant funds for developing GEO THERMAL resource for heating district, tourism and commerce.
1	Grants
1	Grants or tax incentives to developing businesses.
1	Grants to improve infrastructure.
1	Grow green businesses, focus on positive assets of communities
1	Help fund economic development activities.
1	Help fund vocational/technical training.
1	Help with business development ideas, and ideas to increase pay for local jobs.
1	Hold local politicians accountable for executing development plan.
1	I'm at a loss; just trying to do the survey for you.
1	Improve and enhance infrastructure roads and recreational facilities
1	Improve infrastructure. Roads, highways.
1	Improve the educational system/opportunities, cradle to grave, for the people of this county.
1	Incentives and tax credits for job growth.
1	Incentives for business growth
1	Incentives for higher paying businesses and industries
1	Incentives to locate businesses in Pagosa Springs without penalties imposed for development.
1	Increase funding for tourism
1	Increase tourism and business visitors in the smaller towns.
1	Increased funding for training through the schools and adult education programs
1	Infrastructure revitalization of town/main street through grants.
1	Infrastructure grants for roads, bikepaths and high speed internet.
1	Investigate the theft of millions of dollars of county funds.

1	Job growth!
1	LOWER PROPERTY TAX
1	Leadership capacity building. We need great leaders.
1	Less Government - permitting and paperwork.
1	Less regs. to open a business- city, county, state.
1	Less restrictions on new comercial businesses, e.g., competition for the food and drug stores.
1	Loan program to fund incoming businesses
1	Local economic development bonds.funded by local investors . Federal and state tax free.
1	Lower business taxes
1	Lower commercial property taxes
1	Lower taxes and less BS
1	Lower taxes on gas to help with tourism
1	Lower taxes, permits, and vehicle licensing costs
1	Make capital available
1	Make loan and grant funding more easily accessible
1	Make more jobs available.
1	Market the growth potential of Archuleta County
1	Marketing OEDIT, DOL&E SBA programs and opportunities!
1	More grants for local businesses
1	More jobs at all levels
1	More jobs.
1	More tax on gas/coal oil extractive industry.
1	More worker training programs
1	National promotion efforts for our State
1	New Business Incentives to bring jobs to community.
1	Partner with the Town and County.
1	Promote Archuleta county to other parts of the state and to other states.
1	Promote Tourism
1	Promote and incetivize entrepreneurship.
1	Protect property rights
1	Provide funding for technology parks with infrastructure to do R & D.
1	Provide high speed broadband access to the area.
1	Provide incentives for property owners and existing & new businesses.
1	Provide more financial support to avoid the loss of existing and established businesses.
1	Provide/support training for jobs independent of boom/bust development
1	Reduce or eliminate Property taxes and push for only one overall tax such as a sales tax.
1	Reduce taxes and fees.
1	Reform the ballot initiative process and the constitution.
1	Relax CDOT requiemnts and regulations for US Highway 160 through our town.
1	Relieve the tax burden
1	Relocate the state highway running through the center of town.
1	Remove regulations on schools, farming, and businesses.
1	Require schools to be globally competitive.
1	Small buisness tax relief
1	Start a State owned bank like North Dakota
1	Stop Front-Range political activism and spend less money.
1	Stop defunding education and FUND education, fund basic human right issues
1	Strategic grants to leverage economic development projects
1	Streamline access to capital for growth and/or existing business sustainability
1	Streamline permitting
1	Support and encourage small business growth within our community

1	Support education and tourism
1	Support of local education and distributed education for job training.
1	Support our Social Service department and Infrastructure
1	Support the Geothermal Project
1	Support the schools
1	Support the tourism industry, especially since the return on investment of tax dollars is huge
1	Support tourism and education
1	Support tourism and green business
1	Tax Credits
1	Tax credit for business development
1	Tax credits for businesses rather than taxation for success.
2	Tax credits for job growth.
1	Tax incentives &/or deferments for new business locating to our county.
1	Tax incentives for developing energy friendly businesses ..
1	Technical assistance and assessment visits to develop local action plans
1	Technical assistance and assessment visits to develop local action plans
1	This initiative is a great first step!
1	To aid in the development of small businesses
1	To be more active in our part of the state.
1	Tourism
1	Train county Commissioners to listen to the people and be more responsible with tax dollars
1	Transportation; Hwy. 160 is the only road in or out.
1	USFS Timber Operation
1	do something to stop all the fees that are charged here. do away with the water board
1	eliminate state personal property tax on business.
1	eliminate the small town politics ( good luck with that)
1	foster alternative energy industry.. solar, geothermal, biomass
1	funding of Geo-thermal energy infrastructure
1	funds
1	funds for small business to weather boom/bust cycles
1	get rid of mayor
1	grant funding
1	grants and information for new business owners
1	help determine suitable business to pursue
1	help find small industries
1	improve homestead tax law, we pay way to much in property taxes
1	increase broadband
1	jobs
1	keep taxes low
1	limit permitting and building fees, make it easier and cheaper for people to build!
1	loans for small businesses, farming, arts
1	lower taxes
1	relaxation of required permits and existing regulations
1	roads
1	state-owned and operated banks
1	streamline regulations
1	support development of geothermal resources for agriculture and aquaculture
1	support diversification to include non-tourism growth: geothermal businesses
1	technical assistance and assessment to help develop and keep momentum for local plan
1	tourism/natural resources
1	unknown

1	we need job growth. Incentives or access to existing state programs
1	what ever to help bring some industry here. We have no young families because there is no work.
1	change statute for how property taxes are assessed - market comps ain't working and isn't equitable! Taxes are driving out or discouraging new business.
1	Hepl provide some other industries that could provide good jobs here to bring back the middle class.
1	Rationalize the school funding formula so that we are receiving a fair share of state funding and are able to reallocate more of our property taxes for infrastructure supporting economic development.
1	Work with our CDC (volunteers - I am happy to help) to teach us how best to approach business and offer tax incentives to bring them to our town. Shelley Low - (970)946-0930
1	Assist to evaluate our local conditions and assess possibilities. Share relevant success stories and make recommendations.
1	help reduce property taxes and give Tax breaksto existing and new bus that that create sustainable jobs
1	View business trends/decisions of the last couple of years and factor them into a new plan for growth in our area: what is currently being used & happening isn't working and needs a tactical approach.
1	Promote progressive thinking at our local government level to encourage growth and prosperity. Acknowledge that the Western slope communities belong to the state of Colorado. Designate HWY 160 as a scenic byway.
1	Support schools for future successes, emphasize diversity and down play development and construction as key businesses that bring about a healthy economy. Focus on rural regional recycling as a job creator.
1	Watchdog program for those counties that are failing, loss of population and home & business losses. Find out why those counties are failing.
1	There is dire need for family activities indoors - the Town's Parks and Recreation Department is swamped trying to cover this issue.
1	Improve access to capital by entrepreneurs and small businesses emphasizing research and technology. This encourages higher-educated people to start businesses that attract and retain younger people and their families.
1	Increase tourism by promoting Colorado as a vacation destination with year around outdoor playground activities.
1	We need help with economic growth for business to come to the community for jobs to keep people in our area with reliable pay
1	Investigate current policies to assure that they are legal. This is not a growth county. why are we being held back?
1	Change the property tax structure for commercial so commercial space would be more affordable for small business. In a small town like Pagosa Springs it's tough to make enough profit to cover \$1,500 in rent in the off tourist.
1	Development of better Technology/communications infrastrucutre. This would attract more business who in today's environment need up-to-date technology in order to conduct business
1	Helping EDC form plans that work to bring new types of businesses to Pagosa Springs. Perhaps give tax incentives and statewide REDUCE COMMERCIAL PROPERTY TAX STATEWIDE!
1	Improve our road system so more people would be willing to buy existing homes in the more rural areas by that I mean unpaved roads.
1	Assess local Gov. to make sure personal agenda is not ruling factor. Regulate Home owner associations.
1	We need professional leadership. We need an organization with determined drive. Not beurocracy and red tape, we need decisive forward thinking leadership.
1	Re-work school finance. The present system is broken. Archuleta County/Pagosa Springs receives less PPOR than Durango, Bayfield, Telluride, etc. (Areas with a much healthier economy)
1	Advertising blitz about beautiful region, Skiing, hunting, the springs, abundant housing available, clean air.
1	Adult Education. State funds for adult and continuing education so hopefully these persons (youth from HS) will remain in town and creat their own business opportunity, economic growth for the County,
1	1) Grants for Tourist related capital improvements; 2) Change real estate 35 acre subdivision laws to 20 acres.
1	Help with assessing the local pros and cons based on an objective perspective from outside team of professionals.
1	DOLA should emphasize the importance of local government listening to the public and seeking consensus on important issues.
1	Help us diversify - we are too dependent on tourism and construction. We need more stable small industry as well as improved access to really high speed internet.
1	Give us a tax break - we are a very poor county and people are leaving in droves because they cannot afford to live here anymore. Our property taxes are out of sight.
1	increase growth of existing businesses and encourage new business to enter the scene (a more business friendly climate)
1	Leadership is the key to economic security and prosperity in our towns and the State. No one solution exists and

	leaders with understanding and conviction will need resources such as loans and grants to secure and promote economic development. Bottom up ED won't work with the current political climate.
1	Sustainability. The State of Co could help our community by providing grants and resources to construct sustainable growing spaces, bicycle traveling paths linking down town with up town on a safe paved path, and access to alternative transportation such as bicycles to promote energy efficiency and community caring.
1	Help bring jobs here. We are so in need of permanent jobs. We are very poor and so many people are below the poverty level. Every week we loose more and more businesses, that will never be able to come back.
1	Force towns to develop a recreation center ant promote parks in towns. kids are the future and strong families.
1	Somehow support further training programs here, esp. including blue-collar training such as small-engine and auto mechanics, etc. And ANY specific job training for young people.
1	Incentives or grant monies to utilize the natural resources we have in our community - geothermal & solar to cut utility costs for local/county government as well as school district and citizens. Old infrastructure is failing...we need to harness this natural energy resource!
1	Recognize that small rural communities need financial help and growth programs on a level different than big towns or cities.
1	Direct aid in locating and hiring a competent and knowledgeable economic development director, with a proven track record.
1	Recommend our Mayor of 30 years step down and that we form a city/county government to unify the community.
1	Better funding for our airport to make it more attractive for flt-in visitors who spend LOTS of money
1	Either provide an inflow of state revenues into our county or reduce the tax outflow from our county to the state... including a personal state income tax break for living in a low populated county
1	Educate the locals on accepting change to improve the economy and life style of the population, and give more reasons for tourists to come.
1	Better schools! We need to keep younger people, train and educate them, and this will attract a diverse population.
1	encourage growth- building the community so others could come to Pagosa find a job and have affordable housing
1	Improve airport infrastructure, commercial hangars, pavement expansion, rental hangars, snow removal equipment, paved roads into the airport, industrial park clean up, FAA and State project priorities realignment to support revenue generation.
1	Standardarize the tax structure for both state and county. County taxes should be paid to the town first then forwarded to the state.
1	Funding of the Geothermal Greenhouse Partnership and related geothermal and solar projects that would be entrepreneurial, educational and tourist benefits and attract green industry
1	Relaxing of regulations in order for building to resume. Revitalization of downtown ~ closing or tearing down empty store fronts. Incentives to reuse the exsisting buildings or require owners (companies) to fix up empty property.
1	Sustainable light industry - can't rely solely on tourism - need something stble that can emply people in a variety of capacities. Transportation (public) along Hwy 160 corridor would help this entire part of the state!
1	Help Pagosa Springs become an alternative energy model city - use the geothermal and solar energy sources. Provide training for local electricians and incentives for them to become solar experts. Training needs to come here as young families cannot afford for the wage earner to travel to distant places for training. Help the young families stay here by providing training that is needed for solar and geothermal.
1	Designation and promotion of Region Nine as a viable business corridor highlighting its natural potentials for business relocation, geothermal research and development, a community college in Pagosa Springs, better transportation options and business relocation tax incentives.
1	Keeping goverment to a minimum . Road ,Police and schooling. Goverment is not very efficient how it uses money. I would not hire the gov. to build my house. People want (taxpayers) to pay for stuff. If a community needs something they will make it happen.
1	Leave education alone. Without great schools it doesn't matter how much job opportunities are out there. Families wont come if our schools are weak.
1	Tax incentives for new industry locating in Archuleta County with employment of 10+ employees.
1	change the way funding is calculated per student so we receive funds more comparable to surrounding schools.
1	Support a fast track to home rule that would allow Archuleta County to become a County/Town with Pagosa Springs.
1	Ensure government grant programs are designed to fit.meet needs of Archuleta County so that grant seekers don't have to compete with urban counties for grant awards.
1	Provide incentives (funds) to purchase large open spaces, especially along the entry/exit corridors to protect them from thoughtless, ugly development. Our county's #1 attraction is its pristine beauty which is in great danger of disappearing. With it will go the tourism we so depend upon.

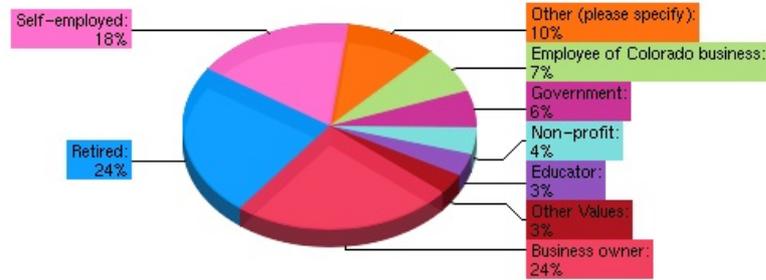

1	solar or other renewable energy projects or the making of those products in the not very much use industrial park! Finish the river restoration, and river walk path. Then have a river festival!
1	the state could assist small construction business with the bonding requirements that are mandatory to contract with government agency such as schools, parks, health dept., county facility. Bonding is very difficult to get in the private sector, insurers want collateral equal to or greater than construction cost.
1	WORK WITH EXISTING LOCAL BUSINESSES TO EXTEND THEIR MARKET SHARE, USING AVAILABLE TECHNOLOGY, TO INCLUDE MARKETS OUT OF THE LOCAL AREA.
1	Provide greater tax credits for job growth in rural markets. Too many incentives are for Denver metro companies.
1	Provide opportunities for the young people in the community besides the tourism industry. Nobody should be expected to be a waiter or maid for a career in tourism. My kids had to move away to get good jobs.
1	Fund renewable energy experts to guide and teach us how to use our valuable natural geothermal resources for economic benefit.
1	PAWS, our area water dept. is extremely out of line on their meter fees and this makes it financially impossible for all types of businesses to come here. Someone MUST take action to make this more affordable!
1	Quite raising Property Value up so high that it running Businesses and families out of town. There should be NO increase when the Country is in such BAD shape.
1	Reduce regulator over site. Job creation is the only economic driver. Colorado' real estate tax structure is too onerous.
1	unbiased survey for the town and county compared to an equal town/county that has been successful in implementing economic development, how they did it,
1	To help our local governments to work together and to train the voting public about what it takes to have a thriving town.
1	I support Lobato in the Lobato vs. Colorado lawsuit. The current funding inequity of our school system deprives our poor county of our local tax dollars.
1	hold the county government accountable for the way they use our tax dollars. there is only so much the citizens can do but the mill levy and license fees are just out of sight and driving people away. young p[people cannot afford to stay.
1	To train our local and county officials and their respective employees to work efficiently instead of drawing pay for little or inefficient work. They need to learn to work SMART not just exist.
1	Recognize/respond to the needs of small, unique counties "lost" in this corner of the state. We are most often forgotten or passed over for funding or other attention but have great potential being missed.
1	Improve state funding of education in Colorado. We've seen many good people leave Pagosa (and Colorado) because of frustration with our public schools. Colorado is failing miserably with one of it's most basic mandates. Good schools would bring people and business to Pagosa like nothing else.
1	grants/expertise to develop geothermal greenhouses to grow food in Pagosa Springs to distribute throughout southwest CO
1	help us get rid of "the good ole boy's" that many of us believe have been milking the cow dry here in pagosa springs.
1	More of state expertise in development presence locally, through seminars, loan application assistance, information about potential business opportunities for entrepreneurial programs.
1	Stop allowing tourism to be the forefront of our economic development plan. DIVERSIFY our economic base, by creating entrepreneurial programs (financing, training, incentives, less govt regulation) for direct based businesses in our area.
1	Help to educate our leaders beyond tourism and real estate building as focus. Help them become current in mobility and new ideas for developing small business opportunities locally.
1	Create a STATE-OWNED (public) bank ... similar to North Dakota, which has NO budget deficit by the way
