

Town of Pagosa Springs

Public Works Director Recruitment

Pagosa Springs, Colorado

Refreshingly Authentic

The Town of Pagosa Springs

Pagosa Springs is located in the Colorado Sunbelt, just 35 miles north of the New Mexico border and along the Western Slope of the Continental Divide. The combination of high desert plateau and Rocky Mountains to the north and east of town creates an unusually mild climate. As a portal to the nearly 3 million acres of the San Juan National Forest and Weminuche Wilderness Area, Pagosa Springs is a doorway to four seasons of outdoor adventure which landed the Town in *Outdoor Magazine's* top 10 "Best Towns in America 2015".

With a population of 13,807 in the Town and surrounding Archuleta County, Pagosa Springs serves as host to area schools, government offices, commercial businesses, and parks. The community hosts visitors throughout the year who come to explore the rich geological and cultural history, attend special events, bike, ski, hunt, fish, hike, or just to enjoy the river that runs through town.

The Town is committed to providing outstanding services that enhance the quality of life for both citizens and visitors to our community.

Compensation & Benefits

The salary range for the Public Works Director is \$79,905 to \$112,770 and the anticipated hiring range is \$84,013 to \$96,337, negotiable and dependent on the qualifications of the successful candidate.

In addition, the Town offers a benefits package that includes:

Retirement:

The Town offers a 401(a) Plan with a 7% match and an optional 457 Plan

Medical Insurance:

Two medical plan options are available for employee and dependents

Dental and Vision Insurance:

Available for employee and dependents

Life/AD&D Insurance:

\$20,000 benefit for employee

Annual Leave:

Annual leave starting at 23 days/year

Holidays:

10 full-day holidays, 1 floating holiday (depending on hire date)

Other Benefits:

Short Term Disability; Supplemental Insurance

The Community

Archuleta County was created in 1885 with the Town of Pagosa Springs incorporated six years later in 1891. Pagosa derives its name from the hot springs located in the heart of town which the Utes called "Pah gosah" meaning "healing waters". Visitors from around the world come to enjoy Pagosa's hot springs, both at developed spas and the small pools located along the banks of the San Juan River.

With its roots in ranching, Pagosa has maintained a rich horse culture with the Red Ryder Rodeo and the thousands of acres of wilderness to explore on horseback. After dabbling in the lumber industry, Pagosa has settled on tourism and the service industries that support it as its primary source of income. Our population is an eclectic combination of retirees, the full time working class, telecommuters, part time residents (second homeowners), and visitors.

Whether you fly, drive, walk, or ride into Pagosa Springs, the raw natural beauty of the San Juan Mountains and the surrounding wilderness takes your breath away.

Pagosa's unique terrain challenges those who thrive in the outdoors and the community is expanding with businesses and amenities that support the outdoor lifestyle while maintaining the character that defines our community and its roots.

IDEAL CANDIDATE

The ideal candidate will be detailed oriented with a well-developed knowledge in all areas of public works operations. He or she will be a collaborative, proactive and innovative leader who is ready to take on the challenges of managing public works in a small community.

Experience and Education

A minimum of a bachelor's degree is preferred. Relevant fields include, but are not limited to, public or business management. A minimum of seven (7) years of progressive management experience in public works or public utility operations. The Town may consider an equivalent combination of education and/or experience that can be applied to fulfill the position expectations.

Competencies and Characteristics

- Considerable knowledge of current materials, equipment, procedures and practices employed in bridge, street, sewer collection, repair, and maintenance.
- Capable of multi-tasking and prioritizing
- Has an eye for efficiencies of processes
- Strong interpersonal skills in engaging numerous internal and external stakeholders
- Possesses outstanding customer service skills, focuses on the highest quality of services and outcomes
- A person of professionalism and integrity who is resilient; owns a strong sense of ethics, both personally and professionally
- Accessible and responsive to the Council, Town staff and the community
- Project management experience
- Has excellent communication and presentation skills; both oral and written
- Possess excellent computer skills and ability to learn and operate a variety of programs
- Collaborative and approachable

THE POSITION

Under policy direction of the Town Manager, the Public Works Director plans, organizes, directs and integrates the Town's public works and utilities activities and functions; provides expert professional assistance to Town management in areas of expertise including engineering, wastewater collection, geothermal, street maintenance, facilities management, project management, storm water and drainage, and fleet management.

- Through three division supervisors, manages the day-to-day operations of the Public Works Department. Divisions include Utilities Division, Facilities Division and Streets Maintenance Division. The total staff in the department comprises a total of 13 full time employees.
- Plans, organizes, directs and oversees the administration of public works within the town including all aspects of construction, maintenance and repair of streets, wastewater collection, geothermal distribution, drainage structures and related public ways; monitors, reviews and approves design and work of contractors; updates and maintains standards for all street and signing projects.
- Works with division supervisors to oversee personnel; implement department policy and rules; inform personnel of new procedures and policy changes; conduct interviews, evaluate employee performance; provide discipline as necessary; organize and conduct department meetings; provide guidance as to project specifications, deadlines, standards and methods of operations; coordinate department training with division supervisors to include OSHA and CIRSA trainings.
- Prepares budget and revenue estimates; prepares projections of needs related to personnel, equipment and materials; predicts growth on existing systems, analyzes costs; directs expenditures of department funds and keeping of department records; formulates and implements plans for maintenance and orderly development; reviews equipment specifications; requisitions for the purchase of supplies and materials used in the construction, maintenance and repair of public works systems; ensures compliance with established fiscal guidelines and budgetary limitations; manages capital projects and adherence to long term capital plans.
